

## About Us

FalCan Industries is a private, family operated Canadian company, founded in 1989. Based in Fort Macleod, AB, the company manufactures a line of custom and speciality flatdeck trailers from 3500lbs. -50,000lbs. Over the past 18 years, FalCan Industries has become a leader in the custom design of trailers and truck decks. FalCan is able to provide design and engineering of a broad range of equipment, from trailers with hydraulic lifting systems, crane cabs, heavy duty bumper grills, custom built truck and service decks and small bridges. FalCan also manufactures a [truck mounted foldable crane](#) with a 2000 lb lifting ability. The staff has grown from four to twenty over the past few years and consists of two full time office staff, experienced welders and painters and an onsite engineer. Increasingly, FalCan is catering to the oil and gas industry and has provided a number of companies with transportation equipment unique to their needs.

All equipment manufactured by FalCan Industries is of the highest quality both in material and workmanship. The products are built to last and maintain their good appearance for many years. Special importance is paid to structure, wiring, safety and paint. FalCan Industries is able to offer a three year warranty on the paint due to the high quality paint system in addition to the ten year warranty on wood decking and two year structural warranty.

Research and Design is an important factor at FalCan Industries. The company strives to improve all of their products regularly to meet the changes in the industry as well as the needs of their customers. Modern computer aided drafting and design are used to allow for ease of changes and custom work.

FalCan's commitment to quality and excellent customer service has made them a leader in the industry and that commitment will continue to be the foundation of the company. The goal is to be a strong force in the industry and a name people associate with quality, honesty and excellent customer service.
